

Conservation and Sustainable Development Program

in Isabela, **GALAPAGOS** (Ecuador)

- Puerto Villamil, Isabela, Galapagos
- 4 weeks. Year round, 1st monday of the month
- Spanish and English
- Local families

Context

The Galapagos Islands have always been imbued with a profound ecological significance. From expansive, untouched shores to the presence of rare, endemic species, this archipelago, born of volcanic activity, straddles the equator in a remarkable display of biodiversity. Preserving the extraordinary beauty of this unique haven necessitates a concerted focus on conservation and education efforts that are deeply rooted in understanding and respecting its inhabitants.

Our local partners, IOI, are deeply committed to safeguarding the Galapagos extends beyond mere rhetoric. We actively collaborate with local authorities, the Galapagos National Park, educational institutions, and esteemed international nonprofits. Through these partnerships, we ensure that every endeavor is meticulously crafted to align with the social and environmental needs.

Our work is underpinned by a philosophy of collaboration and collective action. Together, we strive to protect and nurture the wild and captivating landscape of the Galapagos for the enduring benefit of present and future generations. Embrace the opportunity to make a meaningful difference in one of the world's most precious ecological treasures – join us in the Galapagos and be part of this vital endeavor!

- **Online forum space** to reflect with other students at global level.
- **Test and exercises** to evaluate the acquired contents.
- **Sessions with facilitators** for reflection, monitoring, and learning.
- **Global Competence Certificate** once completed.

Program Structure

Induction and competency enhancement:

Throughout your program you will embark on a comprehensive introduction to our local partners and projects, delving into our enduring sustainability strategy and ongoing projects. This period will be instrumental in acquiring essential skills, ranging from leadership and management proficiency to volunteering, and understanding the operational intricacies of our projects along with logistics management. Our seasoned team will closely monitor your development, offering continuous feedback, including weekly sessions with your designated mentor.

Certificates and course:

You will complete the Emergency First Response certification, alongside participating in Leadership Course and Off-Site Safety Management Training, providing you with foundational skills and knowledge to make you more effective and useful to the projects.

Volunteering:

During your 4 weeks in Isabela you will be volunteering in our of the long term projects that IOI runs. During your application process, and in discussion with our staff, the most appropriate project will be assigned to you. The projects range from Giant Tortoise Conservation, Ecotourism, Sea Turtle monitoring (seasonal), Community English Education, Sustainable farming and Urban Agriculture, or Social Media.

Stay with a local homestay family, improve your Spanish, and become an integral part of the Isabela community.

Carbon literacy workshop:

As an organization, we are working to maximally reduce our emissions in line with latest climate science. Rather than simply offsetting by “paying” for our pollution and continuing business as usual, we are balancing remaining residual emissions through carbon removal credits and “in-setting”—mitigating internally as an organization. As part of this strategy, all participants will participate in a carbon literacy workshop, providing the latest data on climate science as well as share how to measure carbon emissions and strategies to reduce them, in Galapagos but also in our daily lives.

Weekly mentorship:

Our staff is here to support your development and contribution to our conservation efforts. Every week you will sit down with your assigned mentor to evaluate your development, set weekly objectives, and reflect on your progress.

Develop your soft skills:

We know that it’s not all about your academic and technical skills. Employers and educational institutions are looking for well-rounded, adaptable, and resourceful individuals. Our internships will help you gain and develop skills that will enhance your future employability and continuing education opportunities.

Knowledge transfer:

Your internship will be led by our experienced professionals, directly communicating their real world experience to you.

Leadership training:

We want you to be as autonomous and skilled as possible. Leadership is one of the most sought-after skills for potential employers. You will receive our leadership training course and have ample opportunities to put these skills into practice.

Emergency first-aid training:

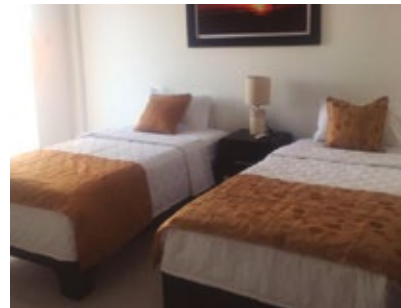

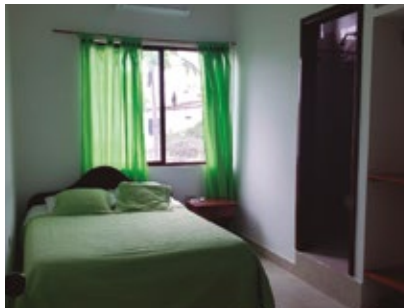

You will complete an internationally recognized 1st aid course. Another certification to add to your CV or resume!

Accommodation and Board

Accommodation is provided by one of our carefully selected host families or in our volunteer housing. In our volunteer housing, breakfast is not included but you have access to our fully equipped kitchen facilities to cover your needs. Lunch and dinner is provided at your choice of various restaurants in town. You simply sign for your meal and we'll pick up the bill at the end of the month.

Our host families have experience with outside culture and international living and provide an amazing immersion experience. You will have breakfast and dinner with your family. Lunch is at the above mentioned restaurants.
