Leading beyond borders – A nature-based and
technology-driven bootcamp in global leadership

Collaboration with:

Certified by:

Boost your professional career with global educational experiences. LEA Global Pathways offers short-term training programs designed for professionals and university students seeking to acquire key skills in international contexts, with official recognition worldwide.

Our programs combine academic training, professional practice, and fieldwork with local organizations, and are certified through European micro-credentials recognized within the Europass and the European Qualifications Framework (EQF), in addition to a Global Competence Certificate (AFS).

Leading beyond borders – A nature-based and technology-driven bootcamp in global leadership

**Location:**

Arusha, Tanzania

**Proposed dates:**

10 days- Semester / Term break of the students

Next session opens in July 2026

A specialized, experiential, and transformative training program

This 10-day leadership bootcamp offers a unique opportunity to explore and develop your personal leadership style through cultural immersion, reflective nature experiences, and cutting-edge AI tools.

Taking place in Arusha, Tanzania — a hub where modern innovation meets rich tradition and wild nature — the program invites students to question their assumptions, broaden their worldview, and connect deeply with themselves.

Participants will work alongside Tanzanian students, meet real leaders from diverse sectors, go on a guided coaching safari to reflect through nature, and discover how artificial intelligence can be used as a tool for personal growth. More than just learning about leadership — this course is about becoming a leader, from the inside out.

This program is carried out in collaboration with Habari Maalum College, a respected Tanzanian institution that enriches the experience through local insight, academic exchange, and cultural integration.

Before traveling: preparation and connection

3 preliminary virtual sessions with the international group:

- Connection between participants and facilitators
- Introduction to the challenge and the territorial ecosystem
- Theoretical capsules on systemic innovation, collaborative leadership, and the ethical use of AI
- Logistical and emotional preparation for an intense collective experience

Bootcamp Objectives

- Discover and develop an authentic personal leadership style.
- Combine European theory and Tanzanian practice to offer a global perspective on leadership.
- Foster personal growth through cultural exchange, reflection, and connection with nature.
- Apply artificial intelligence as a tool for self-awareness and personal development.
- Promote active learning through volunteering and collaboration with local communities.
- Strengthen key skills such as self-awareness, empathy, resilience, and initiative.

Structure of the In-Person Week

Day 1 - Saturday

Arrival in Arusha

- Local welcome and orientation
- Transfer to Habari College
- Integration activity with local students

Day 2 – Sunday

Leadership through Action and Local Inspiration

- Introduction to volunteer projects
- Workshop on defining leadership, skill assessment, and personal roadmap
- Dinner with a local leader

Days 3, 4 and 5 – Monday to Wednesday

Safari, Technology, and Social Innovation

- Leadership reflection through wildlife experience
- Workshop on AI as a tool for leadership
- Impact project guided by an entrepreneurship hub

*Group rotation: a different activity each day

Day 6 – Thursday

Reflection, Tradition, and Local Wisdom

- Recap workshop and session on leadership tools
- Excursion to a Maasai community
- Dinner with a local leader

Day 7– Friday

From Action to Personal Growth

- Final volunteer activity
- Presentation of learnings, outcomes, and next steps

Day 8– Saturday

Local Experiences and Final Celebration

- Optional city and market tour
- Farewell party

After the gathering: closure and final presentation

In the weeks following the trip, a **final online presentation session** will be held, where each team will share their final proposal.

This session will be joined by key figures from the innovation and entrepreneurship ecosystem, offering potential connections to new opportunities.

Methodologies

- Team workshops and group coaching
- Personal and self coaching
- Reflective journaling
- AI-assisted analysis
- Intercultural dialogue
- Field learning
- Volunteering
- Rapid Prototyping
- Development Journey Mapping

Target group

Ideally this course should be directed to:

- University Students
- Corporate Volunteers/workers

Beyond being university students or young professionals, participants should bring a growth-oriented and open mindset. This program is designed for individuals who are curious about other cultures, eager to challenge their own perspectives, and ready to both give and receive in an intercultural exchange. A willingness to learn from nature, to reflect deeply, and to engage in personal development is essential. Participants should be open to stepping outside their comfort zone, value authentic connection with others, and see leadership as something rooted in self-awareness, empathy, and responsibility – not just position or status.

Expected results

- Clear and conscious understanding of personal leadership potential
- Personal leadership model rooted in self-awareness and intercultural insight
- Real-life connections with Tanzanian leaders, students, and communities
- Nature-based reflection and AI-supported coaching
- Individual growth roadmap
- Strengthened global competencies
- Enhanced ability to lead in complex, diverse, and evolving environments

Cost of the program

The cost of the program is 1092 euros

Includes:

- 10-day project with all scheduled activities included
- Accommodation at Habari Maalum College in a double room
- Full board (meals included)
- Airport transfers and local transportation

Does not include:

- Airfare
- Visa fees
- Vaccination costs (if applicable)
- Personal expenses

European Micro-Credentials: Official Recognition of Your Skills

LEA co-issues micro-credentials alongside universities and other accredited institutions. These digital credentials clearly and consistently validate your learning outcomes, professional skills, and field experience.
